MSL944002 - Maintain laboratory or field workplace safety - MSL40122 MSL50122: Maintain Lab Safety AT2

Natalie Jordan - Natalie.Jordan@nmtafe.wa.edu.au <do-not-reply@blackboard.tafe.wa.edu.au>

Fri 31/05/2024 11:20 AM

HI All,

My apologies I couldnt be with you yesterday afternnon but I have lost my voice. Instead you haad the lovely Marjana get you started on your JHA assessment task. Please take the time to review Blackboard under assessments nd upload the required content.

AT1a - is your updated Emergency Diagram and questionaire.

ATb - requires self marking the questionaire and an email response to be uploaded.

AT2 - observation and portfolio of evidence working safely and using safe work practices such as housekeeping inspections, hazard reporting and peer observations.

AT3a - your completed JHA

AT3b - a new safety Bulletin to inform your work group of a new chemical in the lab and how to manage a minor spill.

AT4 - we cover in Session 8. Like this week there will be pre-reading and time to participate in an incident investigation. I will let you know if here is another room change.

Any questions, please reach out and ask as I am here to assist you.

Kind regards,

Natalie
